

CASH FIRST · TRUTH SECOND · DISCIPLINE THIRD

Building Confidence

A practical 90 day plan for LimeChain.

DAYS 1 TO 30

Cash

DAYS 31 TO 60

Truth

DAYS 61 TO 90

Discipline

Five working assumptions

1 Net cash burn near €850k a month

THE ONE THAT SHAPES THE PLAN

2 Collection odds fall with age

3 Crypto valued once a day, same time

4 No new funding in the window

5 Finance stays at four people

◆ A ten week picture, not a runway debate.

The forecast is not noisy.
It is biased.

6 of 6

misses in the same direction

Bias is fixable in weeks.
Noise is not.

Cash forecast miss vs actual, %. Last six months.

Every ask in the brief is a break in one pipeline

THE REVENUE TO CASH SPINE

● = WHERE IT BREAKS TODAY

◆ Fix the spine once. Then hang quick wins from it.

Three journeys, one order

◆ Forecasting is not a phase. It is the output.

€1.8m owed to us: five problems, five plays

One version of the truth

Scorecard v2

8 NUMBERS · 1 DEFINITION · 1 SOURCE · 1 OWNER

CASH WEEKLY	Cash position01	Forecast accuracy02	Owed over 60 days03
DELIVERY WEEKLY	Utilisation04	Margin left per project05	Project profitability06
COMMERCIAL MONTHLY	Recognised revenue07	Qualified pipeline08	Cash first. Delivery second. Commercial third.

The ambition is right. The **sequencing** is the risk.

01

Scoping template

Exclusions in writing.

02

Risk priced buffer

Uncertainty is charged for.

03

Change orders

Scope moves, price moves.

04

Margin tripwire

Hours left vs money left, weekly.

READINESS
GATE

No new fixed price deal above **€150k** until **eight weeks of trusted utilisation data**.

What I commit to, and what I refuse to promise

LIVE BY DAY 90

- 01 13 week cash view
- 02 Receivables under management
- 03 Scorecard v2

EXPLICITLY NOT IN 90 DAYS

- No new systems
- No real time everything
- No fixed price at 40% yet
- No hiring before diagnosis

◆ I commit to artifacts, **not outcomes I do not control.**

I am not asking for budget.
I am asking for decision rights.

01

30 minutes
a week

02

A mandate on the two
disputes

03

Utilisation owned jointly

By day 90: a forecast you believe, a receivables book with owners, and a fixed price model you can scale.
